

Support the missions at **Y-12 National Security Complex** to sustain the nation's nuclear deterrent, including continuing funding for the Uranium Processing Facility (UPF), Lithium Processing Facility (LPF), weapons dismantlement and nonproliferation down blending programs, and infrastructure upgrades.

Support **NASA's Marshall Space Flight Center** leadership in complex systems engineering and integration, technology development, and scientific research, including continued development of NASA's Space Launch System (SLS) and Human Landing System (HLS), along with advancing nuclear thermal propulsion and power systems.

Support for hypersonic testing infrastructure modernization at **Arnold Engineering Development Complex** (AEDC) for its unmatched flight and propulsion testing of our nation's aircraft, spacecraft, weapons systems, and satellite assets.

Support **Oak Ridge National Laboratory** (ORNL) priorities including construction of the Second Target Station at the Spallation Neutron Source, High Performance Computing, the Advanced Manufacturing Program, and the Transformational Challenge Reactor.

Support for **The Center for Rural Development** in advancing broadband, job creation, and Shaping Our Appalachian Region (SOAR) initiative in Southern and Eastern Kentucky.

Support for environmental cleanup at **Redstone Arsenal** and the **Department of Energy** (DOE) facilities in **Oak Ridge, Tennessee** and **Paducah, Kentucky**, which enables safe sites for federal land reuse to meet the needs of critical missions at these installations.

Support the efforts of **TVC universities and community colleges** in developing partnerships that leverage research capabilities and create science, technology, and vocational workforce programs to meet the needs of TVC employers.

Support for the Department of Defense and other federal personnel and assets at **Redstone Arsenal, Fort Campbell, Anniston Depot**, and **Arnold Air Force Base** which support our national interests at home and abroad.

Support the **Tennessee Valley Authority's** (TVA) existing Public Power Model which focuses on providing reliable power, flood control, navigation, land management, and economic development in the region in partnership with its Local Power Company and directly served customers.

Support for the **Appalachian Regional Commission's** (ARC) economic development, workforce development, and critical infrastructure programs, including funding for the remaining stages of the Appalachian Development Highway System.

Support for the announced selection of **Huntsville, AL** as the **new headquarters** location for the **U.S. Space Command** (USSPACECOM).

Support for **Redstone Arsenal's** priorities in space, air, hypersonics, and missile defense mission areas to support our national defense and interests.

Support for federal efforts to **increase broadband capabilities** throughout the Tennessee Valley Corridor region, which is necessary for regional commerce, education, health, and public safety.
